

Dear friends, sisters, brothers!

We as asylumseekers, migrants and supporters want to bring our protest against mass deportations to so-called 'safe' countries like Afghanistan and the Maghreb-States to the streets. Together with you in a day of action all over Germany on the 11th of february at 12am!

The racist laws and practices by the EU and the german government are becoming even more inhuman. They have made agreements with Kosovo, Algeria, Marokko, Turkey and Afghanistan to deport people to those countries more easily. Furthermore the EU is working on agreements with Sudan, Eritrea, Somalia and Ethiopia. We demand freedom of movement and residence for everybody!

We cannot stand those brutal attacks on human rights and to asylum any longer. Our solidarity against those inhuman politics! We need your support and invite you to this day of action on 11th of february.
